

We deliver information and communications technology solutions at scale in developing countries.

Who We Are

OUR MISSION

Vital Wave believes technology can have a deeply positive social and economic impact in developing countries. The company provides end-to-end services to scale information and communications technology for development (ICT4D) in low-resource environments. Vital Wave draws on a full range of enterprise-grade implementation capabilities, proven methodologies, and decades of field experience in developing countries to achieve sustained growth of ICT4D solutions.

What We Do

STRATEGY & ADVOCACY

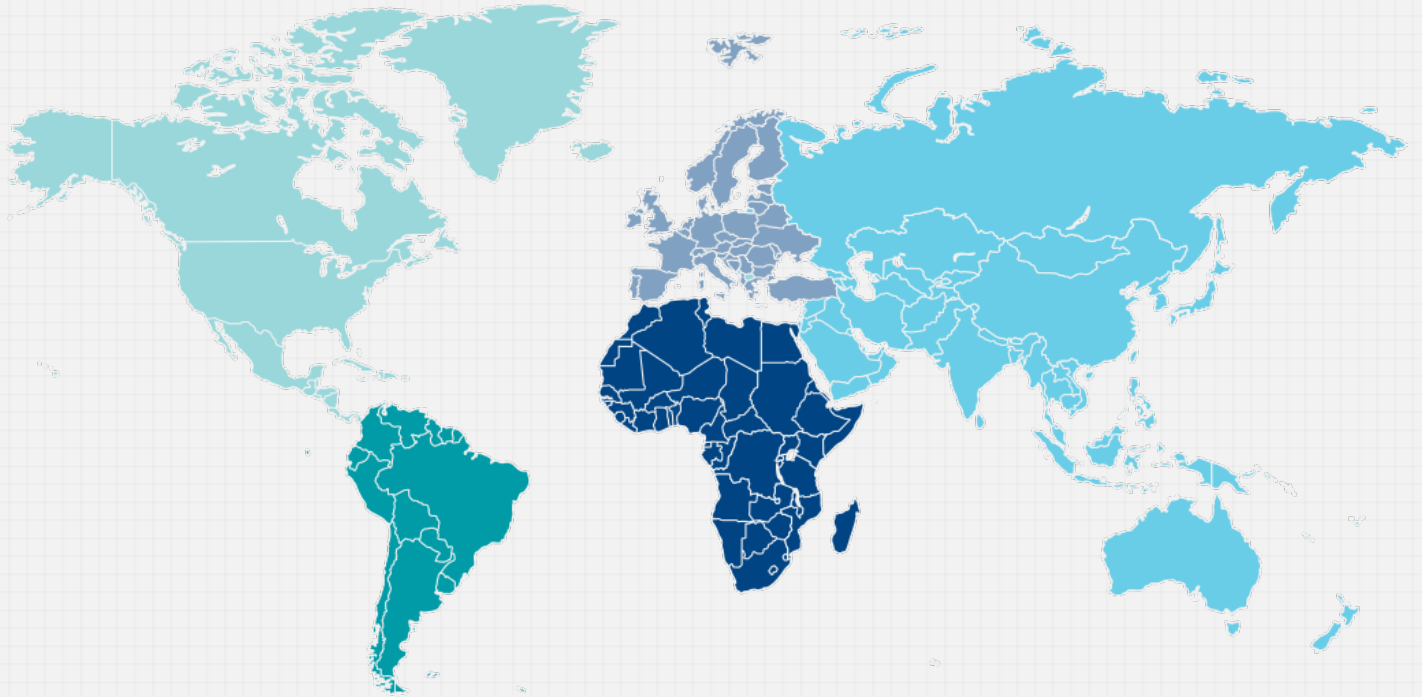

Vital Wave applies years of developing-country experience, proven methodologies (quantitative and qualitative research, data-driven analytics, and user-centered design), and deep knowledge of local business systems to deliver actionable strategies for scaling ICT solutions in diverse markets.
