Digital Tools Overview

Hesperian now offers a variety of digital tools for health promotion, designed for people with limited computer or internet access. Each tool represents thousands of hours of writing, production, field testing, translation, and digital adaptation. Taken together, they form the Hesperian Digital Commons, a collaborative project to re-imagine our trusted print materials through the innovative use of technology.

Trusted Health Information

Immediate online access: The [HealthWiki](#) provides content in a flexible, wiki-based format — well suited for low or intermittent networks. The HealthWiki facilitates online searches by topic and across multiple languages.

Read on a tablet: [Where There Is No Doctor](#), [Recruiting the Heart](#), [Training the Brain](#), and our three environmental health booklets ([Sanitation and Cleanliness for a Healthy Environment](#); [Pesticides are Poison](#); and [Water for Life](#)) are now available as Ebooks!

Download health information: Our books continue to be available for [free PDF download](#).

Multi-lingual Resources

Hesperian publishes books in English and Spanish, and independent organizations have translated Hesperian materials into an astounding 88 languages. Many of those materials are now available through Hesperian's online [language pages](#). We offer:

- print books in 12 languages
- free PDFs in 34 languages
- HealthWiki content in 18 languages

Our Mobile Applications

Now in English and Spanish! Hesperian's award-winning *Safe Pregnancy and Birth* app for [iPhone](#) and [Android](#) presents life-saving information using clear language, step-by step instructions, and illustrations. If you don't have a smart phone, you can [preview the app online](#).

A Way to Create and Share Health Materials

Have you created your own materials using Hesperian text or images? Share your materials with us at hesperian@hesperian.org and help us build an online resource library! See our [open copyright policy](#).

... And more coming soon

- More language hubs
- Additional books in the HealthWiki
- *Safe Pregnancy and Birth* app in additional languages and accessible for lower end phones
- Animated video content

Write to us at hesperian@hesperian.org to learn more, and please consider [making a donation](#) to support this initiative!

Visit the Bookstore to buy
Where There is No Doctor
& all our other books!

Global Reach

People in **221** out of **230 countries**
and territories have accessed
Hesperian materials online.
