## Using Data Analytics to Monitor Health Provider Payment Systems

A carefully developed provider payment system can be a powerful instrument for making progress toward universal health coverage. Effectively monitoring this system is an integral part of the process. Countries can draw on the collective experience presented in this toolkit to create an effective provider payment monitoring system that generates information on an ongoing basis about whether objectives are being met or unintended consequences are emerging.

Six of the tools within the toolkit have been developed such that they can be modified to fit the country's specific context. Links to download these tools are found below:

Tool # - [List of Common Objectives and Potential Unintended Consequences of Provider Payment Methods](#)

Tool #2 - [Menu of Indicators](#)

Tool #3 - [Indicator Scoring Template](#)

Tool #4 - [Indicator Definition Template](#)

Tool #5 - [Open Health Data Dictionary](#)

Tool #6 - [Indicator Mapping Template](#)

Tool #7 - [Data Quality Checklist](#)

Tool #8 - [Reporting Requirements Template](#)

Tool #9 - [Indicator Summary Template](#)

Tool #10 - [Sample Provider Payment Monitoring Report Outline](#)
