Do We Have Too Many Theories in Digital Development?

Published on: Sep 19 2019 by Guest Writer - [Leave a Comment](#)

Theory of this, theory of that. It often feels as if we have a theory for everything in international development, and in ICT4D as a subset of overall development activity. Are these theories for business development, M&E...

Purpose

Help Bridge the Language Translation Technology Digital Divide

Published on: Sep 18 2019 by Guest Writer - [3 Comments](#)

In the digital age, when we face a language barrier, there are a host of internet resources to overcome it. We often rely on translation platforms, dictionary apps, Wikipedia in other languages, or the simple "click to..."

How Engineers Can Leverage Internet of Things for Better Development Interventions

Published on: Sep 16 2019 by Guest Writer - [1 Comment](#)

Typically, an engineer's role in addressing global poverty challenges has often been confined to the engineering problem facing community, regional or national scale service interventions. Engineers focused on product...

Please Register Now: 2019 CGIAR Big Data in Agriculture Convention

Published on: Sep 12 2019 by Wayan Vota - [2 Comments](#)

The CGIAR Big Data in Agriculture platform is where information becomes power to predict, prescribe, and produce more food, more sustainably. It democratizes decades of agricultural data empowering us to mine information...

3 Reasons Why We Need Human Rights-Based Approach to Digital Media

Published on: Sep 11 2019 by Guest Writer - [Leave a Comment](#)

Citizen engagement and participation through the use of digital media is a crucial area of work at this point in history and is now being recognized in regulatory provisions. In July 2016 the United Nations passed a resolution...

Can Bitcoin or Ethereum Cryptocurrency Fund Your Next ICT4D Project?

Published on: Sep 09 2019 by Guest Writer - 6 Comments

While cryptocurrency is starting to become a hot topic among some non-profits, it is estimated that only 1% of non-profits are currently accepting cryptocurrency as part of their fundraising efforts. Since 2010, Kopernik...

Caution! Data Quantity Does NOT Equal Data Quality

Published on: Sep 05 2019 by Guest Writer - Leave a Comment

Revenue administrations collect large amounts of data on individuals and firms in the course of their work. Increasingly, this data is digitised. The use of digital technologies has the potential to greatly improve the efficiency...

5 Ways to Improve Data Use by Government Health Ministries

Published on: Sep 04 2019 by Guest Writer - Leave a Comment

Despite the growing recognition that quality, timely, and accessible data are essential to every country's ability to deliver vaccines effectively to its population, few data use interventions have been rigorously studied...

Apply Now: Paid African Presidential Scholars for STEM and Social Research
